

Criteria Matrix

	Group	Client	Solution
Creativity & Innovation <i>Creativity within the given guidelines and limits</i>	The group has created a psychologically safe environment for creativity and innovation where everyone could feel safe sharing ideas, thoughts and concerns	The group has challenged and brought creative ideas to the company on how to develop the solution and/or how to make it better	The solution reflects an innovative/creative approach within the given limitations (thinking out of the box)
Agile values & principles <i>People over processes (making agile work for you)</i>	The agile values, principles, ceremonies and artifacts are visible in the group dynamics and collaboration	The group has managed to collaborate with their partner company, for ex. PO in an agile way	The solution is releasable and aligned with PO prioritization and end-user (target audience) needs
Presentation Technique <i>Presenting, pitching and responding to questions</i>	The group successfully demonstrates collaboration and a shared understanding through demo, pitch and Q&A	The PO finds the collaboration and solution delivered by the group valuable (client satisfaction)	The group manages to present the solution and its value clearly and successfully through demo, pitch and Q&A
Inclusion & Diversity <i>Utilizing and making room for differences</i>	The group has leveraged on their individual strengths, prioritized personal development and growth and made room for differences during the process	The group has ensured alignment and a common understanding of their partner company and its priorities in relation to the assignment	The solution reflects the diversity and needs of the end consumers who will use the product
